## Change Information

## Change Description

Awinic decided to stop supplying AW338XXCSR Series after December 18, 2019

The whole production cycle of the chip is 90 days (wafer processing cycle is 60 days, packaging and testing cycle is 30 days). According to the chip processing cycle, the EOL plan of

AW338XXCSR Series is as follows :

Date	Plan
2019.06.18 ~ 2019.09.18	If the monthly order quantity is less than 60K, 50% of the payment in advance and the delivery time is 30 days. If the monthly order quantity is greater than 60K, please contact awinic in advance for negotiation.
2019.09.18	September 18, 2019 is the last date for AW338XXCSR Series to receive the order, 100% of the payment in advance, and the delivery time is 90 days (i.e. December 18, 2019). If the customer still wants to continue to purchase, please further negotiate with awinic.

## Affected Area

AW338XXCSR Series  
(AW33801CSR,AW33802CSR,AW33805CSR,AW33809CSR,AW33812CSR)

<b>Reason for Change</b>	
<p>As AW338XXCSR Series has reached the end of the product life cycle, awinic decided to stop supplying AW338XXCSR Series after December 18, 2019.</p>	
<b>Influence Assessment</b>	
<p>If the customer thinks that the above stoppage plan of AW338XXCSR Series will have a significant impact on him, please reply to awinic in writing within 30 days upon receipt of this stoppage notice, and both parties shall jointly negotiate the appropriate stoppage plan of AW338XXCSR Series.</p>	
<b>Proposed Implementation Date</b>	2019/09/18

For any questions related to this notice, please contact the quality department or local sales representative of awinic:
