3. Quantity change of Inner Box and Outer Carton

ITEM	Quantity of packaging before change		Quantity of packaging after change	
	Reel/ Inner Box	Inner Box/ Outer Carton	Reel/ Inner Box	Inner Box/ Outer Carton
MS*Product	1	5	1	10

4. Change of packing method of inner box in the outer carton

ITEM	The packing method of inner box before change	The packing method of inner box after change
13" Inner Box		

5. The size changes of inner box and outer carton are as follows:

ITEM	Size before change (unit : mm)	Size after change (unit : mm)
Inner Box	371×342×55	370×370×41
Outer Carton	385×290×365	440×400×390

Affected Area

MS* series product (MS5525&MS5569)

Reason for Change

1. In order to unify the packaging specifications of all our suppliers;
2. To further enhance the mapping relationship among MBB, inner box and outer carton, so as to achieve better product traceability.

Influence Assessment

One inner box contains only one reel, which is more conducive to the follow-up product information tracing.
